Harbor Oak Plumbing

Business Plan Summary

Greenville, SC

Prepared for Dana Reyes

November 2026

The Business

Harbor Oak Plumbing is a residential plumbing business owned by Dana Reyes. It offers two things: plumbing repairs for homes and yearly maintenance plans. Its revenue is projected to come from two sources, service calls and maintenance plans. The company operates in Greenville, SC, and is due to begin in January. At the start, the business is expected to open and make its start-up purchases in the same month: a service van, tools, and licences and deposits.

Products and Services

Harbor Oak Plumbing provides residential plumbing repairs and yearly maintenance plans. What sets the business apart is that it offers same-day visits and flat prices. The business has two sources of revenue. The first is service calls, which cover the residential plumbing repairs that homeowners need. The second is maintenance plans, the yearly plans that give customers ongoing plumbing care.

- Service calls
- Maintenance plans

Customers and Market

Harbor Oak Plumbing serves homeowners in and around Greenville, SC. Its customers are homeowners located within 20 miles of the business, and that radius defines the area the business is built to cover. The business earns its revenue from two sources: service calls and maintenance plans. Both are aimed at the homeowners in that 20-mile area.

The Industry and the Local Market

- Greenville city, South Carolina had an estimated population of 75,310 as of July 1, 2025.
- Greenville city, South Carolina had a population of 70,720 in the April 1, 2020 Census.
- Greenville city, South Carolina had 35,482 households in the 2020-2024 period.
- The owner-occupied housing unit rate in Greenville city, South Carolina was 41.1% in the 2020-2024 period.
- Median household income in Greenville city, South Carolina was $71,472 (in 2024 dollars) in the 2020-2024 period.

Competitive Position

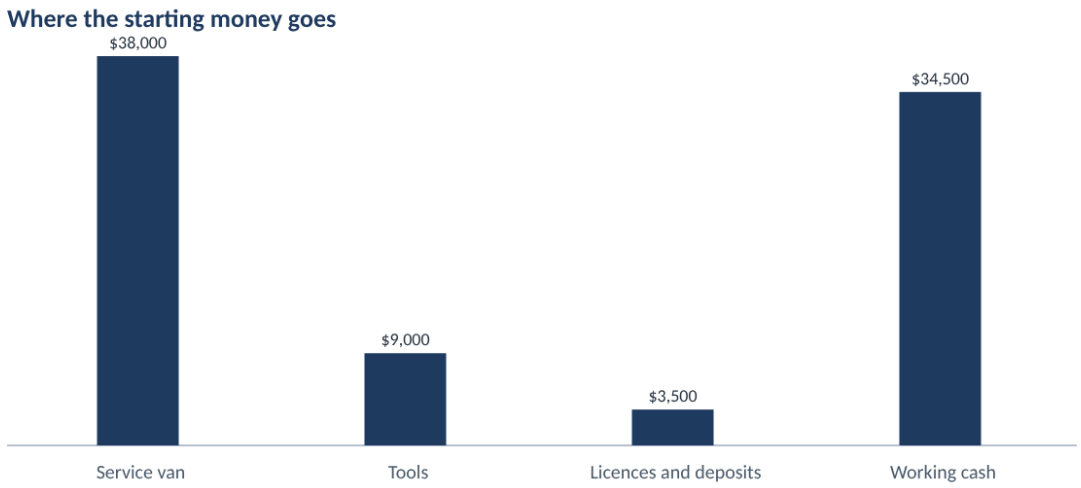

Harbor Oak Plumbing enters a market where the owner has named two kinds of competitors: two larger franchises and several one-truck operators. The business sets itself apart in two ways. It offers same-day visits, and it charges flat prices. These two features shape how Harbor Oak Plumbing is set up. It starts with a technician from month 1 and adds office help from month 7.

Marketing and Sales

Harbor Oak Plumbing serves homeowners within 20 miles of its base. Customers are expected to find the business through two channels: its Google Business Profile and referral cards, which are left with every customer so that satisfied households can pass the name along to others. What sets Harbor Oak Plumbing apart is how it sells. It offers same-day visits and flat prices, and these two points are central to how it presents itself to homeowners in its profile and on its referral cards.

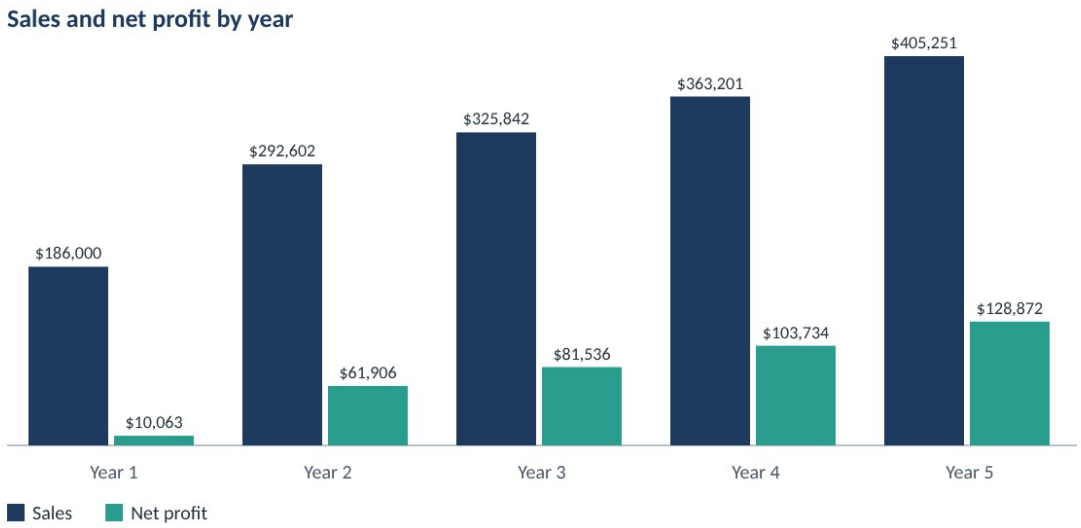

Starting Money and Its Use

- Cash from the owner: $25,000
- Borrowed: $60,000 at 9.5% over 84 months
- Total starting money: $85,000
- Service van: $38,000
- Tools: $9,000
- Licences and deposits: $3,500
- Working cash: $34,500

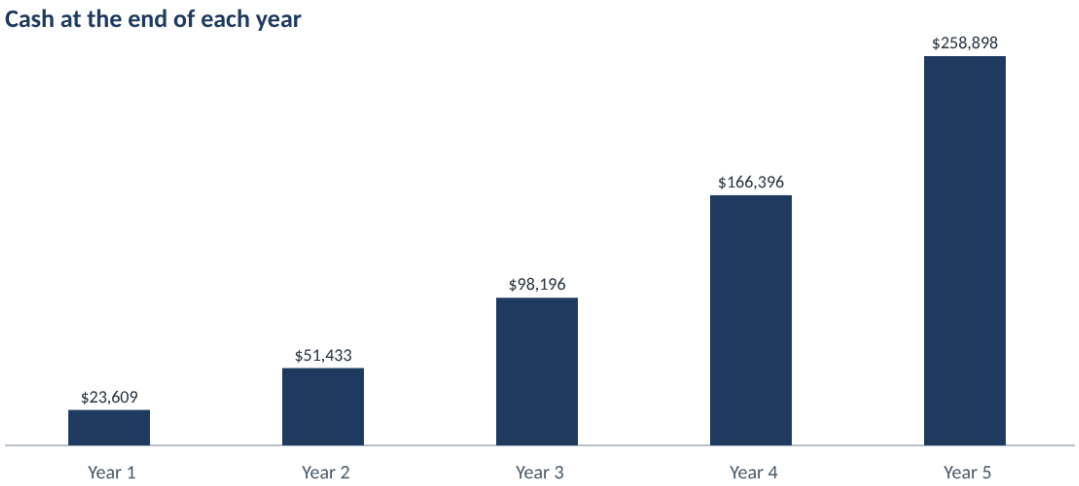

Sales and Net Profit

- Year one sales: $186,000
- Year one net profit: $10,063
- Year five sales: $405,251
- Year five net profit: $128,872
- First month with a profit before tax: month 4

Cash

- End of year 1: $23,609
- End of year 2: $51,433
- End of year 3: $98,196
- End of year 4: $166,396
- End of year 5: $258,898
- Lowest month-end cash: $21,166 in month 9

Management and Personnel

Harbor Oak Plumbing is owned and run by Dana Reyes, who has 12 years as a licensed plumber. The business plans two paid roles. The Technician starts in month 1 and is budgeted at $50,400 in each of the five years.

- Technician, from month 1
- Office help, from month 7

Goals and Milestones

- Month 1: The business opens and the start-up purchases are made
- Month 1: Technician starts
- Month 4: The owner begins taking $3,000 a month
- Month 4: First month with a profit before tax
- Month 7: Office help starts
- Month 12: End of year 1: sales for the year $186,000, cash $23,609
- Month 24: End of year 2: sales for the year $292,602, cash $51,433
- Month 36: End of year 3: sales for the year $325,842, cash $98,196

Risks and How They Are Managed

Harbor Oak Plumbing names two risks. The first is a slow first winter. To even out income through that period, the business sells maintenance plans, which are one of its two revenue sources alongside service calls. The plan shows the first year is projected to close with cash of $23,609, and the lowest point in the year is projected to come in month 9, at $21,166.

About These Projections

These projections were prepared from figures and assumptions supplied by the owner. They are estimates, not a promise of results. They have not been audited, reviewed or compiled by a certified public accountant, and no assurance is given on them. This document is a planning tool for the owner. It is not financial, tax or legal advice, and it is not an offer to arrange or obtain financing.
